36 HARAKEKE DRIVE

Step inside our Harakeke Drive Display Home in Taupō and discover a spacious contemporary home designed around modern family life. The striking two-storey exterior sets the tone, combining clean architectural lines with contrasting dark cladding and light brick for a modern, welcoming look.

Inside, the open-plan kitchen, dining and family area creates a natural hub for everyday living and entertaining, supported by a generous scullery and a separate living room when you want a quieter place to relax. The covered alfresco extends the living outdoors, creating an inviting space to enjoy throughout the seasons.
